Humaam AL-Mehsen

I am a 31-year-old software developer with a foundational degree in information and communication technology, specializing in web technologies and practical applications of artificial intelligence. I have expertise in JavaScript and modern development platforms like Next.js, React, Node.js, and MongoDB. I can design and implement impressive user interfaces and efficient, scalable backend systems, managing the entire development process with ease.

My AI skills include integrating language models, AI-assisted content creation, and utilizing creative AI for generating images and videos. In my work, I use tools like Luma, CapCut, and other AI solutions for both technical and creative development.

I am known as a proactive, eager-to-learn, and solution-oriented professional with the ability to oversee projects and collaborate naturally with people from various backgrounds. I continuously develop my skills, keep up with new technologies, and incorporate them into my projects.

I have 5-6 years of experience in the construction industry, including managerial roles and my own roofing business. This background brings a practical approach, project management skills, and business acumen to my software development work.

My goal is to be involved in creating smart, practical, and visually impactful digital solutions that combine technology, aesthetics, and functionality.

WORK EXPERIENCE

- Aug 2012 - Jan 2013
- Roofer**
[Duunipaikka Oy, Kuopio](#)
- Homam Al-Mehsen has worked with our company in roofing jobs and snow removal tasks.
- May 2013 - June 2013
- Construction Assistant**
[Duunipaikka OY, Kuopio](#)
- Homam Al-Mehsen has been employed with our company from May 30, 2013 - to June 7, 2013 as a construction assistant. The employment was temporary and based on the seasonal needs of our client company.
- June 2013 - Aug 2013
- Roofer**
[Kattotutka Oy, Kuopio](#)
- Painting roofs and assisting with roof renovation tasks.
- May 2014 - Feb 2016
- Roofer**
[Kattotutka Oy, Helsinki](#)
- Installation work at water roof repair sites. Coating work on metal-, tile-, and asbestos-cement roofs. Installation tasks include roofing material installation, repair- and renewal of underlying structures, installing roof accessories, and other related work. The worker has served as a team leader.
- Mar 2016 - Sep 2017
- Roofer**
[HTA Consulting Oy, Helsinki](#)
- I've been requesting a work certificate for six months; they provided pay slips but not the certificate. The job involved supervisory duties at single-family houses-, townhouse sites-, and apartment building sites. Responsibilities included managing the site, overseeing, and directing workers.
- Oct 2017 - Feb 2017
- Construction Worker**
[Jobservice Oy, Helsinki](#)
- I have not yet received a work certificate from Jobservice. I've made a request for it. The job included carpentry-, painting-, and other construction-related tasks.

○ Apr 2018 - Jul 2018	Roofer/Sheet Metal Worker Kattotutka Oy, Helsinki Installation of roof and safety products for various roofing materials. Coating- and cleaning tasks, including repairs. I worked as a supervising foreman.
○ Summer 2019 - Autumn 2019	Roofer Polywork Oy, Helsinki I have requested a work certificate from Polywork, but haven't received it yet. My duties included repairs-, coating- and polyurethane coatings. I served as the second foreman on site.
○ May 2020 - Aug 2020	Site Manager Jatke Oy, Vantaa Creating general schedules, monitoring timelines, site supervision, TR measurements, mass calculations, and element inspections. When necessary, I filed complaints if products did not meet quality standards. Checking and correcting plans, drawings, and materials as needed. Conducted orientations for new employees, checked, guided, and repaired tools. I did inventory every morning to ensure no items were misplaced or work was disrupted. Covered duties during the masters' vacation periods. Received an excellent rating for my work from Jatke Oy.

EDUCATION AND QUALIFICATIONS

○ Sep 2009 - May 2012	Basic Degree in Construction Savon Vocational College, Kuopio I studied for a basic degree in construction and graduated with good grades and a scholarship
○ Sep 2019 - Oct 2020	Civil Engineer Häme University of Applied Sciences, Hämeenlinna I studied to become an engineer before I got sick, and after recovering, I decided to change careers to software development after careful consideration.
○ Summer 2023 - May 2025	Basic Course in Information and Communication Technology Keuda, Kerava I was a student at Keuda Vocational School in Kerava on the information and communication track, where I graduated as a software developer.
